## DIGITAL ENTRY REQUIREMENTS

### Format:

- Each **stereo** image is to be one parallel-view JPEG file.
- Each **stereo** image must consist of a single JPEG image file containing the stereo pair with the left image on the left side and the right image on the right side.

**File Name:** Please name each image as follows:

- **open1\_Lastname Firstname\_Image Title.jpg** for the Open section.
- **scapes1\_Lastname Firstname\_Image Title.jpg** for the Scapes section.
- Use 1, 2, 3, 4 for the 4 images in the order you want them judged.  
For example, a second image in the open section might be titled: "open2\_Metcalf Jim\_Catch of the Day.jpg".
- The title of each image cannot exceed 35 characters. Titles do not need to be translated to English but must be given in English characters.

### Resolution:

- Maximum horizontal dimension is **3840** pixels (2 x 1920).
- Maximum vertical dimension is **1080** pixels.

- “Black banding” is **not** necessary if either dimension is less than the maximum.
- Maximum file size of each image pair should not exceed **5MB**.

Images will be projected without any scaling. Exhibitions are not allowed to resize oversized images. In such cases the entrant is required to resubmit their entry with properly sized images.

#### **Source of 3D depth:**

Left and right images must originate from separate photographs captured by the entrant from different horizontally-displaced positions.

Consistent with the PSA statement on Artificial Intelligence, each image in a pair of 3D images submitted to a PSA approved 3D Exhibition should be created with light capture. Depth in a pair of images must be created photographically. Computer generated depth (i.e., 2D to 3D conversion) or depth obtained by means other than photographically (e.g., Lidar scanning, etc.) are not allowed.

#### **Submission Method**

- All Entries to be received via email. **Please send a separate email for each section.**
- One email per Section: All 4 entries of the same section may be attached to one email.
- All Entries attached to the same email should not exceed 20MB.
- Email sent to [JRM473@yahoo.com](mailto:JRM473@yahoo.com)
- Email Subject Line: Please include "Southern Cross" in the subject line.
- Email body:
  - Please include your name, address, PSA star rating, PSA Honours, and a list showing the title of each entry.
  - If this is the first time you have entered the Southern Cross, please indicate that as well.
  - **Include the following text in the body of your email:**
    - I hereby confirm that I understand and agree to the Conditions of Entry of this exhibition;
    - I am aware that PSA may apply penalties for non-compliance to these Conditions of Entry;
    - I have also read and understood the PSA entrants' agreement found here: <https://psa-services.org/ES/#entrants>

#### **Email Acknowledgment:**

- We will try to acknowledge receipt of the email within 48 hours.
- If you have not received an acknowledgment within 3 days, please contact us again so we can ensure your images are included in the judging.

#### **JUDGING METHOD**

- Judging and award sessions will be held with all the judges together onsite.
- Images will be judged using BENQ W7000 twin projectors. Both projectors have a native resolution of 1920 x 1080 pixels. All images will be displayed at exactly 100% of the projectors' resolution.
- Distribution of images shall be in the same round order as submitted by the entrant, but they shall not appear to the judges consecutively. At no stage will exhibition software allow a judge to view all the entrant's images together.
- Target Acceptance Range: **35 - 45%**.

### **EXHIBITION REQUIREMENTS (Part B)**

**Applicable Rules:** This exhibition will be conducted in accordance with the rules of the PSA.

**Entry Requirements:** This exhibition is open to everyone; however, an entry may be rejected when the exhibition chair believes the entry does not conform to PSA exhibition rules and these Conditions of Entry. Membership in any photographic organization is not required. Neither awards nor acceptances will be granted to any entrant who is on the PSA Penalties List for Ethics Violation, and entry fees are not

refundable in these circumstances. Throughout this document, entrant, author and photographer are used interchangeably, and each term refers to the person who is the original creator of a submitted image. Entrants are required to submit their own entries with properly sized images.

**PSA Star Ratings:** To receive star ratings credit from PSA, entrants must provide their names and country exactly the same way in each exhibition. Aliases are not permitted. Please contact PSA in the event of a name change or relocation to another country. Using one's name differently in different exhibitions exposes the entrant to the risk that many of their acceptances may not be recognized in PSA Star records.

**Reproduction:** Entrants grant sponsors free reproduction rights for exhibition-related media, including low-resolution web posting. Entries will not be accepted from entrants who restrict reproduction rights. PSA may request specific permission for educational use under mutually agreed terms. If an image violates PSA's exhibition rules or its Ethics Policy, PSA may reproduce the image without permission for educational purposes or to illustrate rule violations, with the entrant's name withheld. Neither PSA nor the exhibition assumes liability for copyright misuse.

**Re-use of accepted images:** Any image that has been accepted in this exhibition, past or present, may not be entered again in the same division star ratings class in any future instances of this exhibition. It may be entered in any other PSA recognized exhibitions but must always have the same title. Re-titling in another language is not allowed.

**Entry:** An entry consists of up to 4 images per section, with each image limited to 20 total acceptances per star path. Identical or similar images are prohibited within the same exhibition, and if similar images are uploaded, all will be disqualified across all sections. While similar images may be entered in different exhibitions, they may later be disallowed during star/diamond/galaxy application reviews. Similar images are those which are practically equivalent, as defined on the page available at <https://psa-services.org/ES/#entrants>. To avoid disappointment, do not enter images that are practically equivalent. Watermarks, copyright text or any other visible markings are prohibited.

#### **Titles:**

- Each image requires a unique name that contains a maximum of 35 characters.
- Each title is to be used consistently across all PSA exhibitions, without variations introduced by typographic errors or punctuation.
- Nothing in the image title can identify the photographer.
- A title should be an interpretive or meaningful title that transforms a visual document into a deliberate artistic statement. Titles entered as file numbers such as IMG\_6608, DSC-76499 or in any other camera file format are prohibited.
- Meaningful Titles may be followed by numbers, for example, Ballet Dancer 34.
- Titles may use Latin1 or Latin2 character sets which allow diacritical marks (é, ñ, ü, à, ç, ś, etc), however non-Latin writing systems (العربية, русский, ελληνικά, 中文, カタカナ, देवनागरी ) may cause problems in Catalogs, Galleries and Star applications.
- Color and Monochrome images from the same capture that share substantial pictorial content in common will be considered the same image and must be given the same title.

**Protection of Entrants' Personal information:** By entering this exhibition, you agree to comply with PSA rules and policies, and consent to the exhibition chair and recognized organizations holding and processing your personal details for exhibition purposes, and accept that your participation status (name, country, sections/photos entered) and results will be made public in status lists, galleries, and catalogs.

#### **Target Acceptance Range:**

- The acceptance target range will be no more than 30% in each section except 3D, which cannot be more than 45%.

- No image may receive more than one individual award in a section of any salon. In circuits an image may receive an award in different salon sections.
- The organizer is required to adjust the number of awards based on the total number of acceptances.
- For sections with more than 250 images, no more than 10% of the acceptances can receive awards, and for sections with 250 images or less the chair will allow a maximum of 7 awards.

### **SUBJECT MATTER AND SECTION DEFINITIONS:**

While the following section provides summaries of PSA definitions, entrants must refer to the PSA website for the authoritative definitions for each Division: <https://psaphotoworldwide.org/page/exhibitions>.

#### **Image Creation and Authorship**

Summary: All submitted images must be entirely the photographer's original work, including post-processing, with every pictorial element captured by the submitting photographer. Images must not incorporate or present other artists' work as the photographer's own, in whole or in part (clip art, stock images, replacement skies, photos of others' artwork, AI-generated content, etc). The term author refers to the person who is the original creator of a submitted image; photographers may own the rights to use purchased content, however authorship requires that all visual elements in the submitted photograph be personally created by the photographer. Photographers must retain copyright ownership of all visual elements contained within any submitted image, including composites. A violation of this rule constitutes plagiarism, a serious PSA ethics offense.

#### **Artificial Intelligence**

Summary: Recognizing the rapid evolution of AI software, this rule is subject to change. For the latest rules, consult the AI Statement on PSA's website. AI photo editing tools which enhance, adjust, or intelligently modify what was already captured in your photograph are permitted, provided they use only visual information already present in your photograph. Outpainting tools (generative fill) which allow you to expand a cropped image using a context-aware extension of the original photo are permitted, unless restricted by the Division's definition. Other generative AI tools that generate new synthetic visual content based on external image data not originally present in the author's photograph are prohibited, regardless of how small the edited area. Any person who violates this AI rule shall be banned from PSA exhibitions for a period ranging from 3 years to permanent exclusion. See additional AI notes in the editing matrix below.

#### **Subject Matter**

Summary: PSA's fundamental rule prioritizes animal welfare over photography, prohibiting baiting with live creatures, nest disturbance, endangering subjects, or depicting feeding of live prey to captive animals. Aerial photography must not disturb individuals or animals and must comply with local regulations. The images must comply with the division and section definitions listed on the PSA website; images that do not comply will be disqualified by the judges. Participation in PSA exhibitions is conditional on entrants accepting these policies.

#### **Color versus Monochrome (Black and White)**

Within photography an image is either monochrome or color; there is no third option.

- A Color image is defined by the presence of more than a single color or hue. If an image is treated with two or more colors in any manner or any amount (spot coloring, duotone, etc), it is a color image.
- A monochrome image is defined by the presence of exactly one color or hue; it can display unlimited variations in that single color's intensity, tints, and shades but may not include additional colors (partial toning, split-toning, spot coloring, etc). Black and white images (also referred to as grayscale) are considered monochrome, though technically they are achromatic images which may span the full tonal range from black to white. Monochrome images may not be entered in color sections of PPD or PID.

#### **Open Definition (3DD) Colour or Monochrome**

No restrictions on subject matter.

### Scapes Definition (3DD) Colour or Monochrome

A “Scape” is a landscape, seascape, or cityscape. Landscape/Seascape is defined as: A photograph featuring a broad view of the natural scenery of the terrain or the sea, or that includes both. A tree (or trees), people, boats or buildings may be included but should not dominate the picture. Cityscape is defined as: A photograph that depicts the built form and shape of a city or town (or one of its parts) through general or broad views of buildings and/or streets. Architectural detail images of one (or more) buildings are not considered cityscapes.

**Notes:** Understanding which techniques are prohibited is crucial to avoiding low scores, disqualification and potential penalties. Always refer to the PSA website for the complete and current rules and definitions governing exhibitions: <https://psaphotoworldwide.org/page/exhibitions>

1. **Permitted AI-enhanced editing:** includes editing tools that perform transformations, enhancements, or corrections based exclusively on the existing pixel data captured in the author's original photograph without introducing externally-sourced content.
2. **Prohibited AI editing:** includes any AI-assisted processes for synthetic image generation that incorporate external image data, visual elements, textures, objects, or scenes not originally present in the author's photograph are prohibited.

**Non-compliance:**

PSA reserves the right to investigate complaints, void acceptances, impose penalties, and add violators to the shared Penalty List.

- ◆ Chairs or judges may request raw/unedited files to verify compliance and authorship; for composite images, all component files are required;
- ◆ Non-cooperation with investigations results in penalties.

Participating in this exhibition constitutes automatic agreement to these terms. Entrants are requested to read the PSA's Ethics Policy and statements on Subject Matter and AI for compliance guidelines.
